Hi Tom,

I went through the doc and added a possible introductory paragraph that these are examples that are under consideration for formaldehyde. Also, included some grammar type edits. Some comments regarding exclusion of some parts.

Thanks, Barbara

Per our discussion today, here is what we should consider providing to Vince.

I have to be at a meeting with OMB from 11:00 - 12:00 (probably will go over) and again from 3:00 - 4:00 (could go over). OPPT has offered me office space over there in between the meeting and hopefully I can get a LAN connection to check email.

Please email me or call Ex. 6 Personal Privacy (PP) there is an urgent need.

Tom
